What is the

Audio Engineering Society?

Why should I join?

How do I join?

As the professional society for audio, the AES serves its global membership by providing educational resources, leadership in the development of new standards and technologies, and forums for the exchange of creative and scientific information.

Membership in the AES connects you to a worldwide organization of audio professionals representing all areas of the industry. Networking and face-to-face interaction occur at every level of the society, from local section meetings to international conventions and conferences.

Becoming an AES member demonstrates to your colleagues, clients and employers that you are serious about your profession and dedicated to being the best audio engineer that you can be.

## AES members include...

recording engineers, researchers, broadcast technicians, acousticians, sound mixers, equipment designers, consultants, DSP engineers, students, educators, technical directors, systems installers, mastering engineers, and more.

## Why should I join?

## **AES** Education

## **AES** Worldwide
